

EduMeet.Ai -- PHYS301: Classical Mechanics Lab Guide

Instructor: Dr. Elena Rostova

1. Newton's Laws of Motion:

- 1st Law: Law of Inertia
- 2nd Law: $F_{\text{net}} = m * a$
- 3rd Law: Action and Equal/Opposite Reaction

2. Conservation of Momentum:

- Total linear momentum is conserved in isolated systems: $p_{\text{initial}} = p_{\text{final}}$.
